

FIBREGLASS MESH FOR WATERPROOFING LAYERS

Fibreglass mesh for reinforcing waterproofing layers

1205/1

DESCRIPTION - APPLICATION

100 cm wide mesh

made of fibreglass, for total reinforcing of waterproofing layers (e.g. ISOFLEX membrane) in tough cases of multiple cracking.

Weight: approx. 65g/m².

Mesh: 1mm x 2mm.

10 cm wide tape

made of the same material as above, used for local reinforcing of ISOFLEX membrane along cracks or joints.

COLOR

White.

CONSUMPTION

Depending on the application.

PACKAGING

Rolls of 1m x 50m (50 m²), 10cm x 50m each.
